The project costing more than Rs. 1.5 Lacs would help in providing much needed Tables and Benches for the school children who are currently studying by squatting on the floor and suffering from Bad Posture and Concentration.

The project would directly benefit about 300 under-privileged students every year. This school caters to children of a small village with a population of about 3,500. The project basically aims at improving the Study conditions of the students and assisting the boys and girls in becoming responsible citizens of tomorrow.

Strength and Weakness

A 10-year-old boy decided to study judo despite the fact that he had lost his left arm in a devastating car accident. The boy began lessons with an old Japanese judo master. The boy was doing well, so he couldn't understand why, after three months of training the master had taught him only one move.

"Sensei," (Teacher in Japanese) the boy finally said, "Shouldn't I be learning more moves?" "This is the only move you know, but this is the only move you'll ever need to know," the sensei replied. Not quite understanding, but believing in his teacher, the boy kept training. Several months later, the sensei took the boy to his first tournament.

Surprising himself, the boy easily won his first two matches. The third match proved to be more difficult, but after some time, his opponent became impatient and charged; the boy deftly used his one move to win the match. Still amazed by his success, the boy was now in the finals. This time, his opponent was bigger, stronger, and more experienced. For a while, the boy appeared to be overmatched. Concerned that the boy might get hurt, the referee called a time-out. He was about to stop the match when the sensei intervened.

"No," the sensei insisted, "Let him continue." Soon after the match resumed, his opponent made a critical mistake, he dropped his guard. Instantly, the boy used his move to pin him. The boy had won the match and the tournament.

He was the champion. On the way home, the boy and sensei reviewed every move in each and every match. Then the boy summoned the courage to ask what was really on his mind.

"Sensei, how did I win the tournament with only one move?"

"You won for two reasons," the sensei answered. "First, you've almost mastered one of the most difficult throws in all of judo. And second, the only known defense for that move is for your opponent to grab your left arm."

The boy's biggest weakness had become his biggest strength.

Sometimes we feel that we have certain weaknesses and we blame God, the circumstances or ourselves for it but we never know that our weaknesses can become our strengths one day.

Each of us is special and important, so never think you have any weakness, never think of pride or pain, just live your life to its fullest and extract the best out of it!"

The Four-Way Test

Of the things we think, say or do :

- Is it the TRUTH ?
- Is it FAIR to all concerned ?
- Will it build GOODWILL and BETTER FRIENDSHIPS ?
- Will it be BENEFICIAL to all concerned ?

Fast-track to become a World Bank Vice-President

A Conversation between a man with the initial W & his son.

W: I want you to marry a girl of my choice

Son: "I will choose my own bride!"

W: "But the girl is Bill Gates's daughter."?

Son: "Well, in that case...ok"?

Next W approaches Bill Gates:

W: "I have a husband for your daughter."

Bill Gates: "But my daughter is too young to marry!"

W: "But this young man is a vice-president of the World Bank."

Bill Gates: "Ah, in that case...ok"

Finally W goes to see the president of the World Bank.

W : "I have a young man to be recommended as vice-president."

President: "But I already have more vice-presidents than I need!"

W : "But this young man is Bill Gates's son-in-law."

President : "Ah, in that case...ok"
