### Presidents Message

Year 2005-2006 is coming to an end and it is time to retrospectively look at activities our club has carried out during the year and also make plans for the future.

At this point I would like to thank all the members of our club for giving me the opportunity to lead this dynamic club in the centennial year of the Rotary. Ours is a vibrant club of service minded business men and professional leaders in diverse fields. It was indeed a thrilling experience to associate with a group which is full of dynamism and vigour.

Fellowship is the foundation on which Rotary was built and it is the source of Rotary's strength. Founding leaders of our club laid a very strong culture of fellowship in our club. I have attempted to continue the same by concentrating on all avenues of fellowship which included family meets at different spots, regular speaker meetings, joint meeting with other clubs, games and sports, social activities etc. We have also conducted our weekly meetings as per plan. In JATARA the district conference we had 100% attendance.

It gives me great satisfaction that in our service project we have conducted number of Eye camps in remote villages around Hyderabad. After checking thousands of people more than 100 persons were implanted with IOL in association with Sadhuram Eye Hospital.

Our permanent project on pure drinking water supply to fluoride affected areas in Nalgonda District continued throughout the year with the assistance of Premier explosives. A bone density camp was also conducted to investigate the effect of fluoride on human health.

Our club has made distinction in our District by organizing excellent speaker programs including the one on "Kargil : Leading from front " by the hero of Kargil war Col. Lalit Rai which was joined by all the clubs of the city.

We made a mark in international fellowship through the game of cricket as per the Rotary principle of making friends by sharing interest.

One area we could not meet our commitments is to Rotary foundation as we could not do any fund or fun raising programs. However I hope we will cover this up in the next year.

Fellow Rotarians our club is one of the best clubs in the district and I am sure it will continue to excel in all avenues of Rotary.

### Weather Forecasting

It was October and the Indians on a remote reservation asked their new Chief if the coming winter was going to be cold or mild.

Since he was a Chief in a modern society he had never been taught the old secrets.

When he looked at the sky he couldn't tell what the winter was going to be like.

Nevertheless, to be on the safe side he told his tribe that the winter was indeed going to be cold and that the members of the village should collect firewood to be prepared.

But being a practical leader, after several days he got an idea. He went to the phone booth, called the National Weather Service and asked, "Is the coming winter going to be cold?"

"It looks like this winter is going to be quite cold," the meteorologist at the weather service responded.

So the Chief went back to his people and told them to collect even more firewood in order to be prepared.

A week later he called the National Weather Service again. "Does it still look like it is going to be a very cold winter?"

"Yes," the man at National Weather Service again replied, "it's going to be a very cold winter."

The Chief again went back to his people and ordered them to collect every scrap of firewood they could find.

Two weeks later the Chief called the National Weather Service again. "Are you absolutely sure that the winter is going to be very cold?"

"Absolutely," the man replied. "It's looking more and more like it is going to be one of the coldest winters ever."

"How can you be so sure?" the Chief asked.

The weatherman replied, "The Indians are collecting firewood like crazy!"

### Solution - Cross Word Puzzle

Winner : Rtn. Lokesh Jain

With Best Compliments

*Rtn. Suresh  
Kumar Verma*

### The Four-Way Test

Of the things we think, say or do :

- Is it the TRUTH ?
- Is it FAIR to all concerned ?
- Will it build GOODWILL and BETTER FRIENDSHIPS ?
- Will it be BENEFICIAL to all concerned ?
