Rotary Club of Secunderabad Sunrise

Rotary International President (2023-24)

Dear Rotary member,

Even as we face new and serious challenges, Rotary takes care of its members and those we serve, works to build lasting peace, and embeds belonging and inclusion in everything we do. That is why I am asking everyone in Rotary to Create Hope in the World.

You can start by telling people about what Rotary means to you. Use these graphics on your favorite social media platform and add text or a video about your Rotary experience to share why you're proud to be a Rotary member.

Pushing polio eradication to the finish line

This is a critical year for polio eradication efforts as Rotary and our Global Polio Eradication Initiative (GPEI) partners are aggressively working to interrupt transmission of the poliovirus in the remaining endemic countries and other areas.

Polio eradication is Rotary's top humanitarian priority until we deliver on our promise to protect children everywhere from polio. We had the audacity to take on this mission, and we have the tenacity to finish the job.

Rotary Club of Secunderabad Sunrise

Prioritizing mental health

This year, we're prioritizing projects that aim to support mental health. This effort is deeply personal to me. I know what it's like to see someone close to me suffer in silence. I have also witnessed the power of personal connections, the value of discussing emotional and mental well-being, and the lifesaving impact of preventive care and treatment.

Research shows that performing acts of kindness is one of the most effective steps any of us can take to protect our well-being and make us more resilient to all the challenges we encounter in life. And by building peace within, we become more capable of bringing peace to the world.

How can you take action? Download the Prioritizing Mental Health brochure to learn how you and your club can support mental health. Also consider connecting with the Rotary Action Group on Mental Health Initiatives.

Fostering peace

Building peace is the essence of Rotary. Many of our service projects foster the conditions for Positive Peace. We work tirelessly to overcome barriers and create new connections among people. This year, we'll introduce virtual international exchanges for members to build those vital connections even further.

Peace isn't just a dream, and it's not passive. It's the result of working hard, earning trust,

and having open conversations that may be difficult. Peace must be waged persistently — and bravely. Everything we do, across all our areas of focus, has the potential to foster the hope that can make peace possible.

Rotary Club of Secunderabad Sunrise

Creating a welcoming club experience

The spirit of connection and purpose should inspire every Rotary member. When club leaders focus on offering an excellent club experience, we retain more members and attract more prospective members. We must make our clubs as welcoming and engaging as we can.

Our goal is to create a sense of belonging, from our club meetings to every service activity we offer.

We need to continue creating inclusive, welcoming environments where everyone can be their fully authentic selves. All people of action need to be able to imagine a place for themselves in Rotary — it's up to us to ensure that they can do so.

As we begin this journey together, I take inspiration from Scottish national poet, Robert Burns, who in the 18th century spoke of all world becoming kin, promoting "Sense and Worth, over all the earth." This has long been my call to action, and I share it now with you. Let us build peace within and spread it freely. Let us create belonging and imagine the future of Rotary afresh. Let us work together joyously as we Create Hope in the World.

PRESIDENTS MESSAGE

Embracing Change, Inspiring Service: A Vision for Rotary Club in 2023-24

Rtn. Krishna Narella

I, Rtn Krishna Nerella, would like to start by thanking the Past President and the previous Board of Directors for their amazing role in leading the club.

It is an honor and I am happy to take up the position of president to start this new Rotary year with this year's theme: to create hope in the world by working for peace and mental wellbeing.

As I stand before you today, deeply honored and humbled to take on the role of President of our esteemed Rotary Club for the year 2023-24, I am filled with a sense of profound gratitude and responsibility. I want to express my heartfelt appreciation to each and every one of you for entrusting me with this leadership position. Together, we embark on a journey of positive transformation, embracing change, and inspiring service in our community and beyond.

As we set out on this transformative path, our first focus will be on strengthening the foundation of our club. By fostering a culture of inclusivity, support, and respect, we will build a thriving and diverse community of Rotarians who share a common goal: to make a positive impact on the lives of those we serve.

One of my primary objectives as President will be to cultivate a strong sense of unity and camaraderie among our members. Together, we form a diverse tapestry of skills, experiences, and passions, and it is through this diversity that we find strength. By creating a welcoming and inclusive environment, we will empower each Rotarian to bring their unique perspectives and ideas to the table. Fellow Rotarians, our success lies in the strength of our relationships. Let us prioritize fellowship and teamwork, for it is in these moments of connection that we find inspiration and motivation to continue our noble work.

Education will also be at the forefront of our endeavors. Education is the key that unlocks doors of opportunity and empowers individuals to lead fulfilling lives. We will champion projects that support access to quality education for underprivileged children, promote adult literacy, and encourage skill development for employability.

Additionally, our club will continue to champion healthcare initiatives. Access to healthcare is a fundamental right, and we will work to improve healthcare facilities, this awareness comes primarily from our own participation in taking care of our own health ensuring to practice it with family as part of our lifestyle, that will be the biggest transformation to the society as a whole.

I am also keen to explore strategic partnerships that amplify our impact. By collaborating with like-minded organizations, businesses, and government bodies, we can leverage resources and expertise to achieve even greater results in our service projects.

In conclusion, let us remember that we are part of a global community of Rotarians, united by our commitment to service above self. Our shared passion and dedication will drive us to overcome challenges and achieve greatness.

Together, let us embrace change, inspire service, and leave a profound and lasting legacy of compassion and goodwill in the years 2023-24. I am excited to work alongside each one of you, my fellow Rotarians, in this noble journey, let's ignite a spark of transformation that illuminates the lives of those we serve.

Thank you, and let's make this year one to remember.

Charting Your Legacy: The Artful Masterstroke of Crafting a Will in India

Life's rich tapestry weaves stories of triumphs, uncertainties, and cherished dreams, yet the power to preserve one's legacy lies within the masterful strokes of estate planning. In the vast canvas of wealth and prosperity, Individuals bear the unique responsibility of safeguarding their loved ones from life's unpredictability. Welcome to a riveting journey of profound insight, as we uncover the profound significance of crafting a will in India—the guardian of legacies.

In this article we try to uncover some mysteries, burst some myths and unfurl some well-kept secrets about creating a will deed in India.

Securing the Future: A Priceless Heirloom of a Will Deed:

Picture this: a treasure trove of your hard-earned wealth and precious assets, passed down through generations, like an eternal flame of prosperity. With a well-crafted will deed, you become the curator of your legacy, protecting your loved ones from the ravages of uncertainty and ensuring they bask in the glory of your wealth for eons to come.

The Grandeur of Your Wishes: Unraveling the Supremacy of a Will Deed:

In the thrilling realm of succession laws, confusion lurks, casting shadows on the destiny of your estate. All of it can be overcome, as you wield the majestic sword—the will deed! This extraordinary instrument empowers you to etch your dreams in stone, ensuring that your vision for your estate triumphs, as it outshines any conflicting legal provisions that dare challenge its magnificence.

Legitimizing Property Claims: The Strength of a Will Deed:

Property disputes are prevalent in India, especially in cases involving inheritance. However, a legally valid will deed becomes an indispensable document to assert your rightful claims. With meticulous articulation of your asset allocation, particularly in matters related to parents' property, a will deed acts as an impenetrable defense, preventing potential legal entanglements and securing your legacy for generations to come.

Navigating Bureaucratic Obstacles: Ease through Red Tapism:

In a nation known for its bureaucratic intricacies, a precisely crafted will emerges as a beacon of clarity for your loved ones. By designating competent executors, responsible for overseeing the smooth execution of your will and the efficient administration of your estate, you pave the way for a hassle-free process, sparing your dependents from the burden of dealing with extensive bureaucratic hurdles during emotionally challenging times.

Golden Guidelines

1. You are the star in this script—your will! Starting with your full name and essential identification details like PAN and AADHAR, registering your will eliminates confusion and legal battles. Clearly stating your identity ensures no doubts about the creator of the will, setting the stage for a smooth distribution of your legacy, just as you desire.
2. Designating an executor is akin to enlisting a pivotal figure in the theatrical script of your will. They orchestrate the fulfillment of your wishes. While not obligatory under Indian law, appointing an executor is strongly advised for seamless estate administration and adherence to your intended legacy.

Rotary Club of Secunderabad Sunrise

Charting Your Legacy: The Artful Masterstroke of Crafting a Will in India

3. In the process of crafting your will, the most important aspect is listing all your cherished possessions—a compilation of treasured belongings, from your home to jewelry, cars, and other assets close to your heart. In your will, clarity reigns supreme as you clearly and unambiguously designate rightful owners for each cherished asset. It's like a tailor-made gift list, ensuring your loved ones receive their treasured items without any uncertainty.

4. Including comprehensive beneficiary details, including their identifications like PAN and AADHAR, fortifies the will with an additional layer of water-tight security. By meticulously recording such vital information, the will gains unparalleled precision, safeguarding against any potential challenges and ensuring a robust testament that honors your intentions with unwavering clarity.

5. The vintage "residuary clause" shelters overlooked assets despite meticulous detailing and includes those acquired later. It ensures seamless distribution, bestowing cherished benefits upon rightful beneficiaries.

6. Embarking on the final step of your will's creation, you must ensure the presence of well-known and credible witnesses. With eagle eyes, they observe your signature, sealing the authenticity of your will. This becomes even more authentic when the will is registered with the local registrar.

7. To craft your will with finesse, you must be of sound mind, comprehending its profound impact. Let the authenticity of your choice shine, untouched by coercion or threats—a testament to your free will.

8. Embrace the rhythm of timely action, as procrastination and unforeseen events can sour the sweetest melodies. Resist the allure of DIY wills, for a professional's touch ensures seamless composition—a masterpiece that withstands the test of time.

9. Let the notes of clarity resonate, as ambiguous language can lead to discord among beneficiaries. Craft precise verses, identifying your loved ones and assets without a hint of doubt.

10. Avoid imposing unrealistic or unenforceable conditions on inheritances. Conditions that are difficult to meet or legally questionable may lead to complications and legal challenges.

11. A crucial symphony of your will's success lies in divulging its location to your family and key individuals. Concealing the will, like a hidden treasure, may lead to a cacophony of confusion and untimely delays in fulfilling your wishes. Illuminate the path to a harmonious legacy—share the knowledge, and let your orchestrated will gracefully unfold.

As we embark on the final notes of this symphony of will preparation, we find ourselves enveloped in the melodies of foresight and love. Crafting a will in India is not merely a legal obligation but a profound act of offering a secure future to those we hold dear. Through a well-structured will deed, we become architects of protection, safeguarding family assets and ensuring our loved ones are provided for.

In this grand composition of life, we embrace the legal significance of will preparation, harmonizing it with timely revisions and registration. The result is a legacy that stands resilient against the passage of time—a precious gift that endures for generations. As the timeless proverb reminds us, "Where there's a will, there's a way," and indeed, the will deed becomes the guiding star, illuminating the path to certainty for our beloved beneficiaries.

ROTARY KI PAATHSHALA

Why the Rotary year begins 1 July

Ever wonder why the Rotary year begins 1 July?

The international convention initially played a key role in determining the start date of our fiscal and administrative year.

Rotary's first fiscal year began the day after the first convention ended, on 18 August 1910.

The 1911-12 fiscal year also related to the convention, beginning with the first day of the 1911 convention on 21 August.

At its August 1912 meeting, the Board of Directors ordered an audit of the International Association of Rotary Clubs' finances. The auditors recommended that the organization end its fiscal year on 30 June to give the secretary and treasurer time to prepare a financial statement for the convention and board, and determine the proper number of club delegates to the convention.

The executive committee concurred, and at its April 1913 meeting, designated 30 June as the end of the fiscal year. This also allowed for changes to the schedule for reporting club membership and payments. Even The Rotarian changed its volume numbering system to correspond to the fiscal year (beginning with vol. 5, July 1914).

Rotary continued to hold its annual conventions in July or August until 1917. Delegates to the 1916 event in Cincinnati, Ohio, USA, approved a resolution to hold future conventions in June, mainly because of the heat in cities where most of them occurred. The next one was held 17-21 June in Atlanta, Georgia.

The term "Rotary year" has been used to signify Rotary's annual administrative period since at least 1913. An article in The Rotarian that July noted, "The Rotary year that is rapidly drawing to a close has been signalized by several highly successful joint meetings of Clubs that are so situated as to assemble together easily and conveniently."

Since the executive committee's decision in 1913, the end of the Rotary year has remained 30 June.

Spice of Life: One for the stamp album, brimming with memories

By Priyan R Naik

The number of Indian stamps in the collection were almost thrice the number of stamps of other countries, although the fewer foreign stamps created a niche for themselves by coming in triangular, pyramidal or over-sized shapes with spectacular designs and colours.

I was on a clean-up mission when I came across the neglected stamp album, carefully tucked away at the bottom of my storeroom shelf. My father had introduced me to philately, asking me not to buy stamps but allowing me to trade or exchange them with other collectors to add that competitive and challenging twist to my hobby. Picking out stamps from letters was the way to go, with a process prescribed for removing them from an envelope, involving cutting out the stamp, soaking it in water and drying it between pieces of paper napkins before placing it under a heavy book to flatten it out.

This hobby brought with it enormous fringe benefits. I improved my letter-writing skills, penning often to friends and relatives in India and abroad, asking them to send the stamps back to me, to spread the word around and be on the lookout for stamps. I pestered my father to help me out by collecting the stamps from his office mail and began keeping track of those among his friends who did not have stamp collectors in their family so that their share of stamps could come my way! Bit by bit, my collection grew, stamps of leaders, famous personalities, spices, places, history, mythology, culture, festivals, art, animals, birds, insects, from the Indian and global environment made for an incredible variety. Invariably, the number of Indian stamps in the collection were almost thrice the number of stamps of other countries, although the fewer foreign stamps created a niche for themselves by coming in triangular, pyramidal or over-sized shapes with spectacular designs and colours. Stamps from Poland and Bhutan were coveted.

Soon, I ran out of space to stick my stamps and since the ready-made albums available in the neighbourhood were unsuitable, I created a bigger album of my own. I located a stationery shop and soon enough was the proud owner of a thick over-sized book with huge cardboard covers wrapped in brown rexine, sturdily bound together. I laboured for months, drawing the maps of each country on pages I thoughtfully allocated, making notes about the population, area and the capital city. Sticking the stamps onto the album with hinges was as laborious as colouring each map was time consuming. The end of the exercise, however, left me capable of parroting off the capital cities of several countries.

Years went by, being caught up with school exams, college and work-life, I was forced to consign the stamp album to a corner of a storeroom, waiting for me to rediscover it. There it was, brimming with memories so much so that I was tempted to entice my son to continue this hobby exactly as my father had done decades ago.

In this era of e-mails, Facebook and SMSs, I learnt the hard way that I had overestimated today's 'WhatsApp' generation that communicates through abbreviations and emojis. My son took the album alright, leafed through it for an hour or so, solemnly kept it back on the storeroom shelf where it lay forlorn, dusty and unrecognisable. Alas! The culture of letter writing itself is dying out, but I have made a promise to myself to give emails and digital greetings a rest, and send personalised handwritten letters heretofore so that stamp collectors and albums will continue to flourish.

Philately, as a hobby, brought with it enormous fringe benefits.

Top Festivals around the world - August

1. Burning Man

According to the Merriam-Webster Dictionary there are nearly one million words in the English language. But we're not sure any of them can adequately explain the inspired madness that goes down in the northwestern Nevada desert every summer.

Burning Man started in 1986, when Larry Harvey and his buddy Jerry James assembled a 8-foot-tall makeshift wooden figure and dragged it to San Francisco's Baker Beach on the Summer Solstice.
