FROM THE EDITOR'S DESK

Air Turbulence - It has been in news lately...

What is turbulence?

Turbulence is the chaotic movement of air created by the shearing of winds or forced airflow up over mountains. The atmosphere is a large fluid, with waves of airflow propagating around the world. As the air becomes unstable, it breaks into fast-moving chaotic swirls. An aircraft encountering turbulence is shaken as it encounters fast-flowing, swirling airflow.

What Are the Safest Seats on a Plane?

While no part of the plane may generally be the safest, there is probably a best spot to be sitting when specific incidents happen. Of course, that's always going to depend on variables you can't control. Each airline emergency plays out differently, affecting different seats more than others each time.

"The front section, obviously, is comfortable because it's away from the engine and the noise," . But, "that's normally the first point of impact. And so it's a high vulnerability area."

The back, though liable to separate from the plane in a catastrophic crash, is more likely to stay intact than the front and middle portions that are still connected to the engines. While the middle may be better for turbulence, it's not necessarily ideal for a catastrophic situation. After all, the middle section is typically where the fuel cells are positioned, meaning if a fire is involved, you're right on top of the gas tank.

Aisle, Middle, Window

The back of the plane yet still close to an emergency exit is probably your safest bet.

You've got your row, but now which seat to pick?

Again, there are advantages and disadvantages of each option. Sitting in the aisle gets you closer to whatever exit you might need to head to in an emergency but also leaves you more vulnerable to getting walloped by falling luggage or loose debris hurtling down the aisle. Sitting by the window lets you see what's going on outside, giving you a situational advantage, but it leaves you pinned against the wall and waiting until the other people in your row squeeze out first. Occupying the middle gives you a couple of human shields on either side of you to cushion any potential blows, but the middle seat is uncomfortable and an unpopular first choice.

Despite all the recent news, it's important to remember that airline travel is remarkably safe.

MEMBERSHIP

Design your Rotary Experience

People join Rotary to establish meaningful connections, engage in service that makes a real difference, develop their leadership skills, and broaden their perspectives. But how they grow through Rotary and how they experience membership depend on how they choose to participate. Each member has a unique blend of interests, skills, and talents, and each is attracted to different programs and different ways to serve.

To help members customize their Rotary experience and take action in ways that matter to them, we've created Designing Your Rotary Experience. This guide is helpful both to new and prospective members who want to learn more about Rotary and to longtime members who are ready for new ways to be involved.

GRANTS

Making a difference with Rotary grants

Through The Rotary Foundation, clubs and districts can get a variety of grants. You can use them to support service projects, offer scholarships, and pay for other initiatives that make a difference in communities worldwide. This new infographic, Making a Difference With Rotary Grants, gives basic information about four types of grants: district, global, disaster response, and Programs of Scale. Download it to share with other members.

FOR CLUBS

Update your achievements in Rotary Club Central

Now is an ideal time to review goals in Rotary Club Central. This online tool simplifies leadership succession by allowing incoming leaders access to past goals so they can make informed decisions for the future. Clubs will be eligible for the Rotary Citation if they achieve more than half of their goals by 30 June and have paid all their dues on time. Rotaract clubs will soon be able to use Rotary Club Central to set and track their goals, too. (Refer to the email sent to Rotary club leaders in April for more information.) For now, Rotaract club presidents, members of their sponsor clubs, or district leaders can nominate Rotaract clubs for the Rotary Citation.

Important changes to the Rotary Citation

The Rotary Citation will become known as the Club Excellence Award starting in 2024-25. The RI Board approved this change to better convey the award's purpose as recognition of club excellence. Although the name of the award is changing, the criteria for earning it are not. Also starting next year, Rotaractors will be able to set their goals and report their achievements in Rotary Club Central, and they'll need to do so by 30 June 2025 to earn the Club Excellence Award. Write to our Awards staff at riawards@rotary.org with any questions.

Rotary Club of Secunderabad Sunrise Top Festivals around the world - June

New Feature in this year

"Festivals Around The World."

Whether celebrating life or death, wildlife, religious deities, rowing, or even ice sculpting, festivals add another dimension to your travels. Streets thrum with music and kaleidoscopic parades, you might see traditional rituals that aren't performed at any other time, and you're fully embraced in local life as everyone joins in with the celebrations.

we shall share our pick of festivals around the globe that we feel are worth experiencing as part of a wider trip.

1. Bergen International Festival – Bergen, Norway

The Bergen International Festival, a yearly event in Bergen, Norway, holds a prominent position in the northern European arts scene, drawing over 100,000 attendees annually. With 400 events spread across 70 venues, the festival showcases diverse artistic expressions, spanning music, theatre, dance, opera, and visual arts. As Scandinavia's largest and most significant festival, it ranks among Europe's finest cultural celebrations.

2. Bonnaroo Music and Arts Festival – Manchester, Tennessee, USA

The Bonnaroo Music and Arts Festival is an annual four day music festival and takes place at Great Stage Park on a 650-acre farm in Manchester, Tennessee. It was founded by Superfly Productions and AC Entertainment in 2002.

In 2002, the festival was held as a one-time event but due to its popularity, the festival was held the following year and changed to a two-day event with six stages. Today it is one of the biggest music festivals in the US and you can expect a line-up of more than 150 artists performing around the clock on 10 unique stages.

3. Bordeaux Wine Festival – Bordeaux, France

Bordeaux Wine Festival or Bordeaux Fête le Vin, is an annual event that takes place in Bordeaux, France every summer from mid to late June. Starting in 1998, the festival was created to celebrate the culture and tradition of local winemakers in this region.

It started as a way to promote the wines of the region and has now become a major tourist attraction for wine enthusiasts from all over the world. Today it hosts around 1200 winemakers from Bordeaux and the entire Nouvelle-Aquitaine region.

However, this festival is much more than a celebration of wine. Visitors will be able to enjoy a variety of events such as visiting the beautiful tall ships, daily fireworks and music concerts, as well as wine tasting (of course), food tasting, cooking demonstrations and more.

4. Glastonbury Festival – Somerset, United Kingdom

The Glastonbury Festival (or Glasto, as it's known to regulars) is the largest greenfield music and performing arts festival in the world. It is an iconic, hugely popular and world- famous music festival which takes place almost every year in June over 5 huge days.

The Glastonbury Festival is held in the Vale of Avalon in the UK. This area is steeped in mythology and history, and is said to be where King Arthur was buried. The site of the festival is huge at 1.5 miles across, and taking some 900 acres in total. With such a huge site, the festival has managed to maintain its chill and hippy vibe for over 50 years, with the first festival being held in 1970.

To mark the transition between winter and spring, Peruvians celebrate Inti Raymi in Cusco on the winter solstice (June 24, since Peru is in the southern hemisphere). Inti Raymi honours Inti, or the Incan sun god, and dates back to the early 1400's.

Today, you can join the month of June celebration, and all the festivities leading up to the event on June 24, by watching re-enactments, cheering on dancers and of course trying chicha, the Incan beer.

Messages of peace and progress, anticipation for 2025 convention in Calgary inspire attendees

RI President R. Gordon R. McNally addresses the closing general session of the 2024 Rotary International Convention in Singapore.

After five days of friendship, excitement, and cultural connections, the 2024 Rotary International Convention in Singapore ended with a focus on the future. Speakers emphasized Rotary's continuing mission to promote peace and goodwill and previewed next year's gathering in Calgary, Canada.

Fostering understanding was a central theme of the day, as Rotary Peace Fellows María Antonia Pérez and Clara-Valentine Tigenoah celebrated the 25th year since the Rotary Peace Centers program was announced.

"To believe in peace is to have hope, and to do so, one must be both stubborn and optimistic, and be eager to persist and make a difference," Pérez said. Rotary International President R. Gordon R. McNally emphasized Rotary's long-standing commitment to building peace and noted that the topic has been a key interest almost since Rotary began.

"Our dedication to building a more peaceful world has its ups and downs, but it has been a critical part of how we define ourselves, going back even before the First World War," McNally said. "From our earliest days, we have always had a vision of our organization as something more than just the people we see right in front of us and the direct results of our service projects."

The day's breakout sessions included even more discussion of peacebuilding, with topics such as Innovating Peace Education in Times of Crisis and Understanding the Global Peace Index.

Rotary Club of Secunderabad Sunrise

Two breakout sessions focused on starting new clubs. During the session Rotary Your Way: Form the Club You Always Wanted, people learned key steps in the process, from finding a champion to help organize the club to choosing the club's leaders.

Speakers emphasized that cause-based and interest-based clubs are a popular way to attract new members, noting that clubs can be formed among alumni of the same school, professionals in similar fields, or people who want to address a particular problem.

"Look in your own community for where Rotary is needed," advised Virginia McKenzie of the Rotary Club of The Pacific Northwest Ending Sex Trafficking, which is in Washington, USA. Yvonne Kumoji-Darko of the Rotary Club of Accra-South, Ghana, helped charter more than a dozen Rotary clubs as a district governor in 2020-21. She suggested inviting friends, relatives, community leaders, and local media outlets to a club's charter celebration to help it launch successfully.

Krishnan Chittur of the Rotary Club of Hudson Valley, New York, USA, offered another approach during the session We Formed a New Club in One Week, And So Can You!

Chittur described how he generated enthusiasm for a project to increase access to new technology that detects breast cancer. After he explained Rotary to community members who were interested in the project, they decided to form a club to help implement the initiative.

As the 2024 convention ended, people began thinking about when the global Rotary community would gather again to share experiences, get ideas, and connect with friends. "There are few moments more magical in Rotary than attending a convention," said Bryn Styles, chair of the 2025 Calgary Convention Committee and a member of the Rotary Club of Barrie-Huron, Ontario, Canada.

Calgary is home to people of more than 240 ethnicities who speak 165 languages, Styles said. He also touted the world-famous Calgary Stampede, which will begin several days after the convention ends.

"While in Calgary, you will be mere moments away from the stunning Rocky Mountains, soaking in the majesty of the natural beauty all around you," Styles said. "Within driving distance of Calgary, you can find not one, but six UNESCO sites, including Waterton-Glacier [International] Peace Park," which Rotarians helped establish.

In the House of Friendship, visitors shared their anticipation for the next convention.

"I'm looking forward to seeing what Calgary is about," said Ken Montville, a member of the Rotary Club of Salisbury, Maryland, USA. "I've got my hotel reservations and registration. All I need is the airline ticket."

Aniello Giugliano, a member of the Rotary Club of Canelli-Nizza Monferrato, Italy, called attending the convention "addictive." "I'm going to Calgary because I'm a Rotarian, and the Rotary convention is all about meeting other Rotarians," he said.
