WCS- School Bench Project Report

**With
Rotary Club of Poznan Puszczykowo,
Dist 2230, POLAND.**

Rtn. Rajesh Pamnani
Director International Services,
Rotary Club of Secunderabad SUNRISE.
Chairman (2007-2008).
Inter District Friendship Exchange.

Lend a helping hand around the world. Support a World Community Service Project.

When it comes to helping a community in need. Rotarians don't see borders. And whether they're providing school desks for children, clean drinking water for an entire village, or medical supplies to start a local clinic, a small contribution can bring a big change to communities around the world.

World community service allows you to lend a helping hand while developing a relationship with a club in another country. To start, find a project to support on the WCS Projects Exchange (available at ww.rotary.org). This online, searchable database features over 350 Rotary club and district projects worldwide in need of funding, volunteers, donated goods, or partners for a Matching Grant through The Rotary Foundation.

Community Service is one of the most important themes of Rotary. Literacy amongst this is very important. The lack of infrastructure at the village schools is not an unknown fact. The village Z.P.H.School at Peddakandukur and Yadgiripalli are no exceptions.

**Zillaparishad High School, Yadagirigutta Village, Nalgonda Dist.
Before**

Rotarians from Poland, Mr.Christopher, during the visit to the aforesaid village, noticed the classes being held under the trees, with children squealing to read and write. This posture in long run will lead to various postural problems and vision problems amongst children.

They were highly concerned and responded to our request immediately. As soon as the requirement of school benches was hosted on the net, they raised the funds and joined hands with our club to execute this project of handing over school benches to the underprivileged children of ZPH School, Peddakandukur and Yadagiripalli.

Our club team worked hard to get the lowest quotation and executed the project in eight months. ***The benches were procured from the funds received from Rotary club of POZNAN PUSZCZYKKOWO of Poland and funds of R.C.S.S.***

The first lot of 35 benches was handed over to high school at ZPH School, Yadgiripalli on 15th August '07. Class rooms were inaugurated by Rtn.IPDG Samba Siva Rao, Rtn. Rajesh Pamnani & Rtn. Kailash Gupta.

The function was presided over by Mr.Malleshan, Head Master. Local leaders including Sarpanch participated. Mr.Malleshan and local leaders profusely thanked Rotarians for their generosity and service.

Further a medical camp was organized at Z.P.H. School, Yadagiripalli, on 18th November, 2007 from 09.00 am to 01.00 pm. Eminent Doctor, Dr.L.R.Surender-Dentist, Dr.Kiran Kumar-Pediatrician, Dr.Simon-Ophthalmologist, examined 270 students and advised them about dental health, general health and eye problems.

Biscuits and medicines were distributed free.

The handing over of second lot of 29 benches to the primary school of Z.P.H. School was done amongst the presence of G.S.E. Team leader and his group Denis Devor, Mickel, Troy, Amy and Amanda from Colorado, U.S.A. with grand fanfare.

The local leaders and school authorities highly appreciated our efforts and contribution to the school children, whose eyes dazzled and beamed with happiness by looking at the new school benches and desks. Their urge to use the proper place to study and write was well written on their innocent faces.

Entire team of R.C.S. Sunrise and G.S.E. Team from Colorado, USA, were moved by the happiness and satisfaction of young children words cannot describe this feeling which can only be felt deeper down in our hearts.

The local media covered the event with gratefulness to the Rotary Service of our Club.

During the Visit of Rtn. IPP Krzysztof Milczarek on 29th March 2008 at Hyderabad.

We invited our District Governor Rtn. Dr. Vijendra to accompany us to see the fruits of the project.
